How to play

Every word in the list below each grid is hidden in the letters above it. Words run across from left to right, down from top to bottom, or diagonally. A diagonal word can run up or down, but it always reads from left to right – no word is ever written backwards.

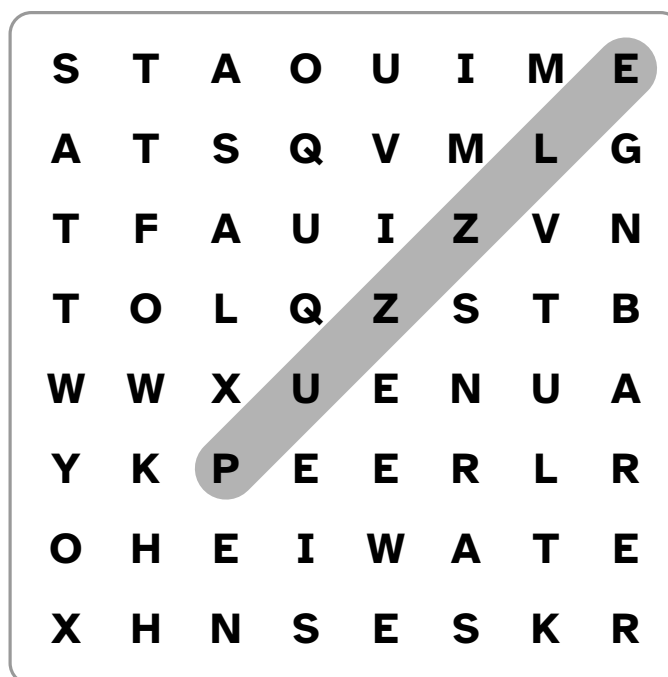

Circle each word you find and check it off the list. Spaces, hyphens, apostrophes and periods in a word are left out in the grid.

The solutions to all 10 puzzles are at the back of the book.

Happy puzzling!
